

ORIGIN MADE

Combining the skills of master woodworkers, expert stonemasons and the know-how of a family-owned lamp-making workshop located close to Porto, Origin Made's creative director and co-founder Gabriel Tan designed turned solid ash wood and local Portuguese marble lamps with a glass sphere nestled in their concavity, hence the name. The Nest Lamp can be used as a ceiling-mounted light or wall-mounted sconce. The light natural ash wood and dark smoked ash wood options bring a certain aura of warmth into indoor spaces. For those seeking an extra touch of elegance, three carved marble options are available where the natural veining of the marble becomes a captivating feature when illuminated, highlighting the unique character of each piece.

Designed by Gabriel Tan

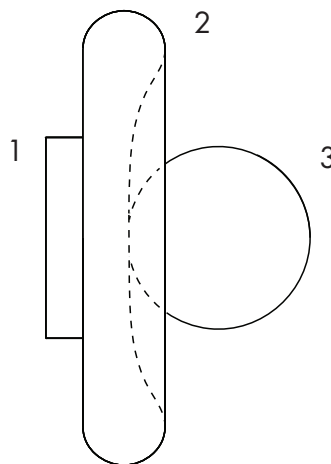

Handcrafted by João Marcelino, Pedro Eira and Carlos Freitas
